Document Analyzer – Capabilities Overview

Document Analyzer (Professional & Standard) assists Proposal, Bid, and Business Development teams with improving their Probability of Win (pWin):

- Shred RFPs into nomenclature segments or paragraphs and sentences within minutes

- Quickly Identify Requirements and identify your own defined phrases

- Rapidly Identify Questions and Instructions

- Generate Work Breakdown Structures (WBS)

- Work in your own secure environment, e.g. Sensitive Compartmented Information Facility (SCIF)

- Single click installation and configurations

- Test draft proposals for readability

- Compare differences between versions of a document in side-by-side interactive application

- Annotate artifact details (e.g. Shredded RFPs, Readability Results, & Diff. Results)

- Generate a starter compliance matrix with a single click (in Excel, Word, and HTML)

- Use your own templates or templates provided by Shipley Associates and Atebion LLC

- Generate Analysis Result for RFP365 imports

- Pro. Edition: Create comprehensive matrices with shredded/parsed requirements, win themes & discriminators (Matrix Builder)

- Pro. Edition: Generate Storyboards / Proposal Development Worksheets (Matrix Builder)

- Pro. Edition: Work within teams (Workgroups)

Professional Document Analyzer – Matrix Builder

AcroSeeker ™

The AcroSeeker™ is an acronym software tool for identifying and validating acronyms.

- Works on MS Word, Excel, PowerPoint, Portable Document Format (PDF), Rich Text Format (RTF), and Plain Text

- Identifies acronyms from within a document and extracts a list of acronyms within seconds

- Validates accuracy of acronyms

- Matches undefined acronyms with selected (Definition) Acronyms Dictionaries

- Ignore acronyms from a selected Ignore Library

- Professional Edition – Deep Search: Finds acronyms based on your selected dictionaries.

- Professional Edition – MS Word Acronym Table (now populates non-definition acronyms)

- Professional Edition – Supports analyzing multiple documents as a batch process

- Easily share Analysis Results reports and MS Word Acronym Tables via email from within AcroSeeker
