

“Simplicity is the ultimate sophistication.” – Leonardo da Vinci

Document Analyzer

We develop easy to use
business solutions

Document Analyzer

We solve business problems ... by developing software solutions

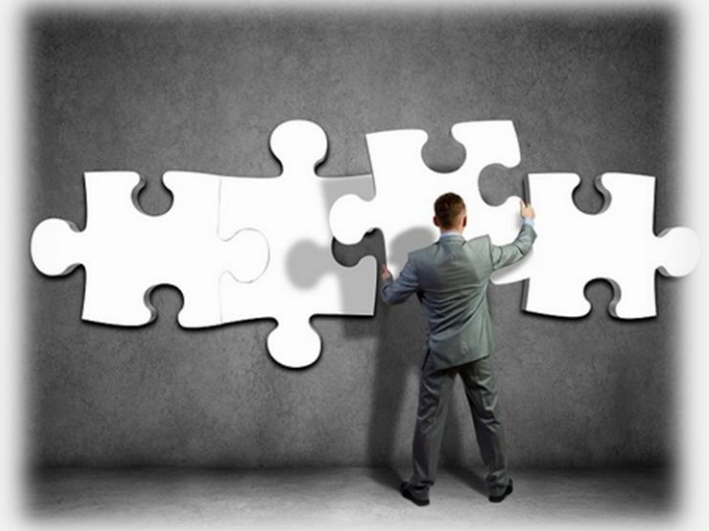

Solutions

Parse Documents and create Requirement Compliance Matrix within Minutes

- **Analyze Document** – Parse/Shred/Burst PDF, MS Word, Rich Text Format (RTF), and Plain Text documents into segments and sentences.
- **Identify Requirements** – using Keywords and Key Phrases
- **Export Analysis Results** – Generate a starter Compliance Matrix quickly
- **Quick Return on Investment** – Saves Hours over the manual effort
- **Reduce Risks** – Minimize Risks of missing critical requirements

Enhanced Quality Check – Check readability of your draft Proposals

- **Improve Communication** – Reduce contents complexity
- **Identify Confusing Text** – Using Flesch Reading Ease test scores
- **Identify Long Sentences** – Sentences should not contain unnecessary words, as with paragraphs should not have superfluous sentences.
- **Your Notes/Comments** – Add Notes to difficult readability segments so they can be addressed.

Document Analyzer

Our software solutions are so easy to use, training is not needed.

Solutions

Diff SxS – Visualize the Differences between Draft and Final

- **Improve Productivity** – Typically a manual process of creating a revision document is not needed by using this tool. Depending on the size and the complexity of your documents you can save between 40 to 85% of time compared to using MS Word.
- **Quicker and Superior Revision tracking and management** – Interactive change navigation with your notes/comments.
- **Quick & Easy Visualization** – With side-by-side change visualization you can see changes between the draft and the final.
- **Superior Report** – Document change navigation is built into the generated HTML report. Excellent shareability, because the report format is in HTML, meaning it can be shared via a website and emails. Additionally, change results can easily be moved into MS word and Excel. Finally, your Notes and Comments are included in the report.

Document Analyzer

Our solutions are better and distinct

Key Differentiators

Easy to use – Intuitive

- Training not needed, resulting in saving training cost and time
- Better experience

No Compatibility Issues with MS Office exists

- No MS Word Macros
- Runs in a compiled software application

Your Own Secure Environment

- Document Analyzer and its tools are installed in your own environment, this enables you to control and secure your data, unlike internet web-applications where security is outside of your system management's control.

Price – Best Value

- Our Document Analyzer has the best price of our competitors
- Quick Return on Invest (ROI)
