SECTION C - DESCRIPTION/SPECIFICATION/WORK STATEMENT

PART 1 – CONTRACT LINE ITEM DESCRIPTION

GENERAL SCOPE OF WORK
 The Contractor shall perform the Detail Design and Construction of the T-ADC(X) Class ship(s) at the Contractor’s facilities in accordance with:

- (a) The provisions of this contract;
- (b) System Specification, Attachment J-1;
- (c) Other documents, exhibits, and attachments listed in SECTION J of this contract; and
- (d) All revisions and modifications thereto dated prior to the award of this contract.

1.0 GENERAL
 The Contractor shall prepare the detail design, perform system integration, construct, test, and deliver the ship and initial logistics support of the T-ADC(X) lead ship and up to 11 follow ships, if options are exercised. Reduced ownership cost shall be emphasized throughout the performance of this Contract. The requirements listed herein are applicable independently and separately to each ship.

1.1 MANAGEMENT.

1.1.1 PROGRAM MANAGEMENT.
 The Contractor shall apply a multi-functional approach to the integrated, concurrent development of the products and the associated processes applicable to the design, ship systems integration, construction, testing, logistics support and in the performance of all other efforts required by this Contract.

The Contractor shall provide the management effort necessary to ensure effective cost, schedule and technical performance under this Contract. The Contractor shall manage the program in accordance with Contract requirements, the management plan(s), and work schedule(s). The Contractor shall fully integrate major subcontractors and vendors to provide overall direction and guidance, track progress and status, and integrate products and services provided by major subcontractors and vendors’ with the products and services provided by the Contractor.

The Contractor shall identify problems and potential problems that could adversely impact ship performance, cost and/or delivery schedule accompanied by proposed solutions in accordance with the general requirement of Section C entitled “CONTRACTOR PROBLEM IDENTIFICATION REPORTS”.

Projects ... groups documents

The screenshot shows the Atebion Document Analyzer interface. At the top, the title bar reads "Atebion, LLC Document Analyzer" and "Document Analyzer 2014, Copyright © 2014 -- Build 1.7.13.0 -- Expires in 156 Days." Below the title bar is a navigation bar with a "Show Buttons" toggle and a sequence of steps: "Create a Project", "Select a Document", "Run Analysis", and "Analyze the Results". The "Select a Document" step is highlighted with a blue arrow and a callout "1".

On the left, a "Projects" sidebar lists several projects: Alex, Demo (highlighted), George, Ken, Trena, and Turning Point. A callout "2" points to the "Demo" project.

The main content area displays the description for the selected project: "Atebion's Document Analyzer: Accurately and quickly parses legal type documents (e.g. RFPs) into a Requirements Compliance Matrix segments enabling the assignment of sections to the proposal teams, validation that each requirement has been responded to and assists in any bid / no bid decision process. Using a sophisticated and mature parser engine, Atebion's Document Analyzer uses the document's numeration to identify the client's requirements whilst searching for and reporting on configurable keywords (such as 'shall', 'must', 'should', etc). Users can then write notes for individual segments, compare between documents versions, search and filter results, summarise the requirements and export analysis results to Excel, MS Word and HTML files." A callout "3" points to the first sentence of this description.

At the bottom, a toolbar contains several icons: a close button (X), a settings gear, left and right navigation arrows, a plus sign (+), an edit pencil, and a trash can. Callouts "4", "5", and "6" point to the plus, edit, and trash icons respectively. A callout "2" also points to the left navigation arrow, and a callout "3" points to the right navigation arrow.

At the bottom of the main content area, it says "Created: Monday, July 14, 2014 12:47:02 PM".

The screenshot shows the Atebion, LLC Document Analyzer interface. The top navigation bar includes 'Create a Project', 'Select a Document', 'Run Analysis', and 'Analyze the Results'. The current project is 'Demo' and the document is 'T-ADC(X) Ship RFP Section C'. The 'Analysis Results' section shows a table of 59 segments. The selected segment is 1.1.2 'MANAGEMENT PLAN(S)'. A callout box labeled '1' points to the 'Split' button in the 'Parsed Segments' toolbar. The 'Notes' pane on the right shows a list of notes, including 'Have Kathy write the response.' and 'Also we need to talk about this at tomorrow's staff meeting.' The 'Selected Segment' pane at the bottom displays the text of the selected segment, with keywords highlighted in green.
