SECTION C - DESCRIPTION/SPECIFICATION/WORK STATEMENT

PART 1 – CONTRACT LINE ITEM DESCRIPTION

GENERAL SCOPE OF WORK
 The Contractor shall perform the Detail Design and Construction of the T-ADC(X) Class ship(s) at the Contractor’s facilities in accordance with:

- (a) The provisions of this contract;
- (b) System Specification, Attachment J-1;
- (c) Other documents, exhibits, and attachments listed in SECTION J of this contract; and
- (d) All revisions and modifications thereto dated prior to the award of this contract.

1.0 GENERAL
 The Contractor shall prepare the detail design, perform system integration, construct, test, and deliver the ship and initial logistics support of the T-ADC(X) lead ship and up to 11 follow ships, if options are exercised. Reduced ownership cost shall be emphasized throughout the performance of this Contract. The requirements listed herein are applicable independently and separately to each ship.

1.1 MANAGEMENT.

1.1.1 PROGRAM MANAGEMENT.
 The Contractor shall apply a multi-functional approach to the integrated, concurrent development of the products and the associated processes applicable to the design, ship systems integration, construction, testing, logistics support and in the performance of all other efforts required by this Contract.

The Contractor shall provide the management effort necessary to ensure effective cost, schedule and technical performance under this Contract. The Contractor shall manage the program in accordance with Contract requirements, the management plan(s), and work schedule(s). The Contractor shall fully integrate major subcontractors and vendors to provide overall direction and guidance, track progress and status, and integrate products and services provided by major subcontractors and vendors’ with the products and services provided by the Contractor.

The Contractor shall identify problems and potential problems that could adversely impact ship performance, cost and/or delivery schedule accompanied by proposed solutions in accordance with the general requirement of Section C entitled “CONTRACTOR PROBLEM IDENTIFICATION REPORTS”.

Selected Segment 1.1.2 MANAGEMENT PLAN(S).

The Contractor shall prepare an event-driven integrated management plan or separate management plans that document the significant accomplishments required in the performance of this Contract. The management plan(s) shall provide the Contractor's integrated approach for detail design, ship systems integration, construction, testing, delivery and logistics support for the T-ADC(X) lead ship and if the ship option(s) are exercised, follow ship(s).

The management plan(s) shall include how the Contractor's program planning and implementation of that planning will manage concurrent and interactive efforts of all program disciplines affecting the T-ADC(X) detail design, ship systems integration, construction, testing, and logistics support processes. The plan(s) shall address how these processes will be validated. The plan(s) shall describe all new processes developed exclusively to meet the requirements of this Contract.
